### **GBEBB Staff Conduct with Students**

The Region 8 Board expects all staff members, including teachers, administrators, counselors, and others (including volunteers) to maintain the highest professional, moral and ethical standards in their conduct with students.

The interactions and relationships between staff members and students should be based upon mutual respect and trust, predicated by an understanding of the appropriate boundaries between adults and students in an educational setting, and consistent with the educational mission of Region 8.

Staff members are expected to be sensitive to the appearance of impropriety in their contact with students.

Staff members are encouraged to discuss issues with the Director or Assistant Director/ Student Services Coordinator whenever they are unsure whether particular conduct may constitute a violation of this policy.

The Board recognizes, is appreciative of, and wishes to be supportive of the manner in which staff members attempt to care for students in a personalized and caring manner, and in no way wishes to place unnecessary barriers to the myriad of times, places and positive ways that staff work to serve our students.

The Board also realizes that in communities in which many teachers are themselves parents or relatives of our students, many sorts of informal and outside relationships with students are healthy and normal, and the Board does not wish to interfere with these.

By creating this policy, the Board wishes to make explicit its intolerance for behavior that violates or blurs the professional boundaries and does not respect the well-being of our students.
